

Announcement of Appointment

Saskatchewan Common Ground Alliance Names New Board of Director

The Saskatchewan Common Ground Alliance (SCGA) is pleased to announce the recent appointment of Bill Fraser to the Board of Directors.

Bill Fraser is Operating Center Manager of the HDD Division with Carson Energy Services Limited, now owned by URS Flint. URS Flint has over 50,000 employees in nearly 50 countries, with Oil & Gas being just one of the divisions. Bill brings a wealth of experience to the horizontal directional drilling market in the Western Provinces. As the Corporate Product Manager of all stores Canada wide, for Ditch Witch equipment and over 30 years in the HDD market, he brings a unique look into field operations that affect the safety and marketability of underground work. This experience will provide us the “real time” insight into ground conditions in our province.

Dean Reeve, President of the SCGA welcomes Bill to the Board and looks forward to his contributions. One effort that Bill will be closely involved with is the SCGA Damage Prevention Best Practices Task Force. These Best Practices will be closely aligned with a first set of national best practices and should prove to be valuable to all members of the organization.

The SCGA is a member driven organization dedicated to ensuring worker and public safety, environmental protection and the integrity of services by promoting and educating on effective damage prevention practices around underground infrastructure activities. For more information, please go to www.scga.ca.
