Saskatchewan Common Ground Alliance Names New Board of Directors

The Saskatchewan Common Ground Alliance (SCGA) is pleased to announce the appointment of Shantel Lipp and James Cameron to the Board of Directors. The appointments were recently approved at the December 01, 2015 SCGA Annual General Meeting held in Regina.

Shantel Lipp is President and COO of the Saskatchewan Heavy Construction Association (SHCA), a member driven organization representing over 200 members in the road building and heavy construction industry. Shantel brings extensive industry knowledge and specific expertise in public policy, strategic operational planning and priority setting. Prior to her 7 years with SHCA, Shantel was employed with SUMA and developed many relevant skills through that engagement. Her excellent leadership and communication skills, commitment to achievement and energy will be a benefit to the SCGA organization as we continue to meet the needs of our diverse membership.

James Cameron, Senior Facilities Engineer with Crescent Point Energy Corporation based in Weyburn has 20 years of pipeline construction experience within Saskatchewan. He is a professional engineer graduating from the University of Saskatchewan with a BSc in Civil Engineering. Through his daily work, James is very aware of the challenges to protect underground infrastructure in a very busy part of Saskatchewan. He has demonstrated a strong focus on worker and public safety through his involvement within the construction scene. This experience and specific knowledge of the oil and gas industry will provide a good foundation of ideals and opportunities for the SCGA to explore.

Dean Reeve, President of the SCGA welcomes both Shantel and James to the Board and looks forward to their contributions. The SCGA Board of Directors, and membership have recently approved a 2016 Business Plan focused on four key strategies including education and public awareness of damage prevention issues, continued enhancement and communication of national Best Practices related to underground infrastructure damage prevention, promotion of the need to implement Mandatory One Call in Saskatchewan and ongoing continuity of the Saskatchewan Common Ground Alliance.

The SCGA is a member driven organization dedicated to ensuring worker and public safety, environmental protection and the integrity of services by promoting and educating on effective damage prevention practices around underground infrastructure activities.
