Saskatchewan Common Ground Alliance (SCGA) Officers Update

At the SCGA's annual general meeting in December, the organization announced several key changes to its leadership team.

Norman Krogstad, Vice President at SaskTel, has assumed the role of President of the SCGA, effective December 5, 2024.

We are also excited to share that Rob Musselman, from TC Energy, has been appointed Vice President, while Triphina Wirth from HCSAS takes on the role of Secretary-Treasurer.

Executive Director Shannon Doka is eager to collaborate with the new leadership team and extends heartfelt thanks to Derrick Mann, past president from SaskEnergy, for his dedicated years of service.

The SCGA is a member-driven organization committed to promoting worker and public safety, environmental protection, and the integrity of services. We do so by advocating for and educating on best practices for damage prevention related to underground and overhead infrastructure activities.

For more information about how we operate and who are the Board of Directors, visit www.scga.ca.
